

## Reading Guide

CEEG 340–Introduction to Environmental Engineering

Instructor: Deborah Sills

**Reading assigned for Wednesday 10/9: EPA websites posted on Moodle**

Our speaker on Wednesday, Dr. Alison Kennicutt, worked at the EPA in the following capacity: she was at the Office of Research and Development in Cincinnati, OH and she did work within the National Exposure Research Laboratory and the National Risk Management Research Laboratory. Her she conducted chloramine disinfection experiments to look at scaling up the reactions that create disinfection by-products.

Take a look at two of the websites posted, and pose one question for our speaker, Dr. Alison Kennicutt. Write your name and your question on the following [Google Document](#).
